Vehicles must be stopped 10m away from school boundaries. There should be **one parent** in the vehicle to bring students safely to the school gate and take them back to the vehicle at the leaving time. This will be strictly observed by the security guards.

If the van has more than one student, there has to be a **student leader** appointed for the group. At the end of the school, this student leader is responsible in assembling the group and keeping them inside the school premises till the parent comes and takes them to the van.

(A Pass will be issued to the parent)
